Little 
Feet™
Preschool
...towards a bright future

Since 2009

“ A little kingdom called 'Little Feet'
right up to your street,
welcomes your little one's little feet.
We aim at making children smart and
elite,
whether or not they become an
artist, doctor or athlete.
As they will surely march to their
own beat,
Since here, fun never takes a
backseat.
Just to set your child's base and
future to be concrete,
enroll your little one
at 'Little Feet.' ”

Let your child enter the world of learning and development. Let them experience the feeling of being self-confident and independent. Little Feet is not just a Playgroup and Nursery, it is a whole new world for your little one to learn, understand and explore. At Little Feet, we introduce a stress-free and safe learning environment for the children between the age of 1.5 to 4 years.

Children are the future of our hopes and thus, we focus on each and every child to attain an enjoyable learning experience with us. We generate several opportunities to enhance your little one's confidence and hidden talents.

We have a group of well qualified and experienced team of mentors, teachers, and minders that are experts in supporting, teaching and supervising children. The colourful ambience, child friendly furniture, interactive books, non-toxic toys and a whole lot of activities make Little Feet an interesting place to learn through play-way method.

Founder

Mr. Savio Fernandes

For many, a founder is just someone who starts something; but, in fact, a founder is a person who changes his dreams into reality. A very few people can make their dreams come true. Such is our founder, Mr. Savio Fernandes.

Little Feet Playgroup and Nursery was founded by Mr. Savio Fernandes in the year 2009. Since his childhood, he has always dreamt of helping others, for education holds a crucial place in his life. His motive is and has always been to provide the best educational environment for every child. He believes that each and every child deserves quality and fun-loving education. In the society full of discrimination, he believes in equality. He understands and firmly believes that every child is unique and treasured with different talents. Mr. Savio Fernandes very well understands the importance of each child's needs for development as he is the founder of Little Feet and a teacher as well. He, being a teacher, believes that one should be taught according to his grasping capabilities and interests. According to him, different teaching techniques work for different students and hence, the entire syllabus is designed in a way that every child can make the most of it. Hence, he believes in and has been implementing Howard Gardner's Theory of Multiple Intelligences. He aims at preparing each and every child to be able to overcome numerous challenges in life.

Co-founder and Principal

Mrs. Renny Fernandes

A Principal is not only the head of the school but also a friendly mentor of and for the children.

Mrs. Renny Fernandes, the Co-founder and Principal of Little Feet Playgroup and Nursery believes that childhood is the period of curiosity. And that's why toddlers always keep questioning about everything. She understands that the world is competitive, and hence, she aims at developing the right attitude and aptitude of every child in the initial years of their lives. She helps every child discover his or her hidden talent. Knowing and

understanding the uniqueness of every child, Little Feet has a well-researched curriculum, which is age-appropriate and stimulating as well. Little Feet doesn't simply aim at theory but also focuses on practical knowledge and skills. She aims at igniting humanity, love and cooperation in your little ones.

Curriculum

EYFS

Children are born ready, able and eager to learn. The Early Years Foundation Stage (EYFS) sets standards for the learning, development and care of your child from birth to 5 years old. At Little Feet the EYFS curriculum is implemented in synchronization of Howard Gardner's Theory of Multiple Intelligence that enables educators to cater to all kind of learners present in a learning environment, by closely matching what they provide to a child's current needs.

Brain Building

About 50 per cent of our ability to learn is developed in the first five years of life. Near to 30 per cent is developed before the age of eight.

Your child is born with more than enough brain cells to be highly successful in life. It's not the number of brain cells that determines usable intelligence, it's the number of connections that are made between those cells. These connections are formed through the rich, stimulating environment you create in the early years.

Making lots of brain connections and discovering their preferred learning style gives your child an invaluable advantage. These connections and learning styles can be developed through Little Feet's Learning Program.

What is Little Feet's Learning Program based on?

- MEMORY AND CONCENTRATION
- FUN
- RICH SPEAKING VOCABULARY
- FIVE ACUTE SENSES
- RESPONSIBILITY
- LISTENING AND MUSICAL SKILLS
- CO-OPERATION AND LOVE
- LOGICAL THINKING
- WRITING
- CURIOSITY
- SELF-RELIANCE
- FITNESS AND HEALTH
- HAPPINESS
- CREATIVITY
- READING

Activities at Little Feet

Cooking Experience

Cooking activity fosters the social-emotional development in children and helps them develop pride and confidence in their basic cooking skills and abilities.

Art and Craft

Art and Craft is the best way to channelize energy to foster intellectual development. This stimulates both - the right and left hemisphere of the brain, increases the capacity of memory, attention and concentration, helps develop reading skills, introduces children to new vocabulary and concepts and allows children to use their imagination and be creative.

Field Trips

Field Trips are organized to let your children see the outer world. It helps by introducing children to a different way of experiential learning. With all the theoretical knowledge obtained from the books, it is very important for children to have some practical - hands-on experience. Communication and self-awareness are the two main aspects taught to the children during the field trips.

Free play

Free Play is a great way to let children socialize indoor and outdoor. During Free Play, children are allowed to communicate, play, bond and interact with each other. They are allowed to choose from a wide range of activities. They play with blocks, puzzles, different toys and games. It develops fine and gross motor skills, builds a sense of independence, helps them overcome their shyness / fears and gradually builds their confidence.

Activities at Little Feet

Sand and Water Play

Sand Play helps in boosting their creativity, imagination and perspectives. We let them dig, sift, scoop and pour the sand. Water Play enables the children to improve their fine motor skills and eye-hand coordination through movements involved in pouring, scrubbing, stirring and squeezing. The children also learn scientific concepts like sinking and floating.

Fancy Dress

Fancy Dress at Little Feet is not only about costumes, but also about learning through role play and enacting new concepts which helps build their confidence.

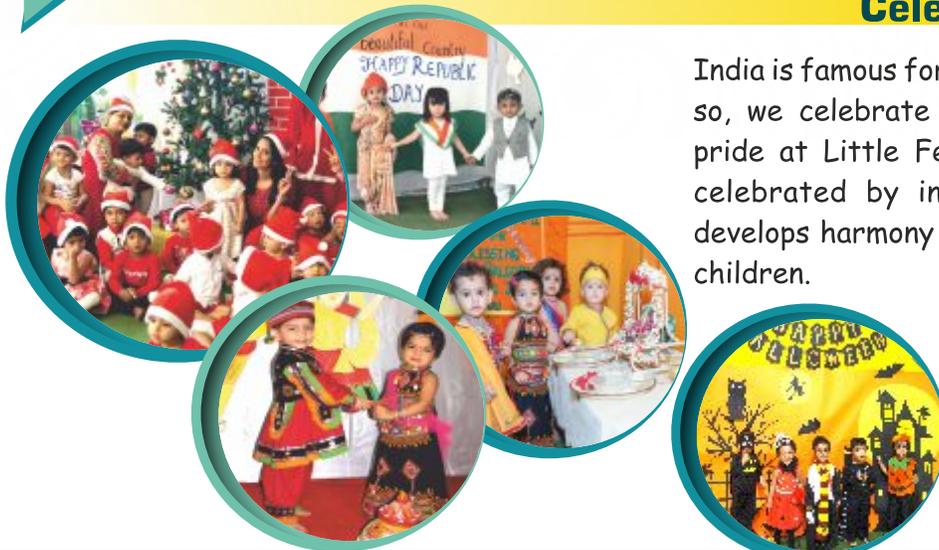

Open House

With so many great activities and interactive sessions, we make sure that we bring out the best of every child. We understand how important it is for parents to know about their child's progress and so we organize Open House twice a year to discuss children's academic, social, creative as well as physical development.

Celebration of Festivals

India is famous for its rich cultural heritage and so, we celebrate all our festivals with great pride at Little Feet. Every Indian festival is celebrated by incorporating activities that develops harmony and brotherhood amongst all children.

Activities at Little Feet

Sports Day

Sports Day is held to awaken the hunger for health and fitness in a child friendly competitive environment. While the world is busy being a part of the rat race, we encourage the children to be physically and mentally fit. We teach them to accept failures with a smile and work harder to win.

Annual Day

Aarohan Fest

We celebrate Annual Day, Aarohan Fest every year to take parents through their child's academic year journey and enjoy bonding with one another. Our little ones also dance and sing during the Annual Day, leaving the audience awestruck with their series of performance. Not only children but parents also perform on stage to encourage their children.

Special Days

People from noble professions pay a visit to Little Feet and interact with our students. We arrange dental check-up for our students too. We also celebrate colour days, camping, pajama party etc.

LITTLE FEET PLAYGROUP AND NURSERY TURNS 14-years-old!!

Little did we know in 2009, that our hard work and efforts would result in such a sweet and beautiful today. We started with high aspirations and we are proud to say that we've accomplished them. Our founder and our principal, Mr. Savio Fernandes and Mrs. Renny Fernandes, were pulling out all the stops they could. With each day, they overcame an obstacle and turned it into a stepping stone. With tons of hardships and competition in the educational sector, our founder and our principal have believed in their uniquely pure beliefs and made it till here.

SAVIO TUTORIALS
WE BELIEVE WE ACHIEVE
